RHB-serie

GET THE  
RED CRUSH!

# RHB

## Rotar Hydraulic hammer

The RHB series is reliable, service-friendly and extremely strong, meaning that the Rotar Hydraulic Hammer literally strikes your projects home!

### Quiete and reliable

This innovative hydraulic hammer has only two movable parts, making it a lot less vulnerable than its competitors. Due to its contemporary design, it is one of the quietest and most reliable hydraulic hammers on the market.

### Extremely efficient and give it enormous impact energy

Hybrid technologies make this hammer extremely efficient and give it enormous impact energy. The RHB series is furthermore fitted with a power booster for extra hammering strength. Double blade holders secure the blade and absorb torque forces, and thanks to their oval shape they can be used twice.

### Effortlessly provides you with the desired effect

Whether you need punching, breaking or penetration power, a variety of blade types effortlessly provides you with the desired effect. The RHB series can furthermore be fitted with an automated lubrication system for increased longevity.
